

CONTROLUNION

Mission and Vision

Our mission: - Control Union Italy target independent services through local presence with a focus on clients. Entrepreneurship and a flexible dedicated global network sustain Control Union Italy in the case of “global project”.

Our vision: - Control Union Italy responds to the demand for national/international developments and to increasing external requirements for sustainable business. It operates through a network of companies under one unique owner and a shared management system. **We aim for impartiality, controllability, efficiency, external confidence building, risk management and to increase compliance.** We focus on the development of specialist and combined services to increase our added value. We acknowledge the importance of human capital by consolidating and improving safety, continuity, quality and competence.

The Goal of Control Union Italy is to achieve accreditation according to the ISO 17020 standard. Consistent with this purpose, the whole CU team is committed to the implementation of the ISO 17020 management system.
